

DELUXE MULTI LABS Hobby Kits

<http://www.a1parts.ca/newkits/index2.htm#ELECTRONIC%20LAB%20KITS>

Part No	Description	Price
MX-500-1	The 500InOne Electronic Project Lab has everything you need to build 500 exciting projects all contained within it's own built-in carrying case. With this advanced kit you can learn the basics of electronics and put your knowledge to work creating 500 different electronic experiments such as, special lighting effects, radio transmitter and receivers, amazing electronic sound effects, cool electronic games and MORE! Also it includes built-in breadboard and spring wire clips for easy wiring of the components, and the LCD (Liquid Crystal Display) indicates the status of your experiments! You can build your knowledge of electronics by exploring amplifiers, analog and digital circuits, and learn how to read electronic schematic diagrams. The kit includes an extensive set of electronic parts including transistors, transformers, diodes, resistors, capacitors, phototransistors, CDs, integrated circuits, speaker, earphone, LEDs, and an LED digit display! The loose components fit in compartments on either side of the built in handle for safe storage. There is a fact-filled, illustrated, lab-style manual included. Requires 6 AA batteries not included. Ages 10 and up.	\$178.00
MX-908	300-inOne Everthing you need to build 300 Exciting Electronic Projects: A Transistor Radio, IC ORgan, Burglar Alarm, Battery Checker, Delayed Timer, Electronic Game, Voltage Controlled Amplifier, Multiplier, Multiple Counter, Digital Light dimmer, Tone Burst Generator, Audio Signal Tracer, Electronic Candle, Voice Level Meter, Metal Detector, Rain Detector, Voltage Drop Alarm, Logic Checker, Function Generator	\$93.00
MX-907	200InOne, Learn about Transistors, Transformers, Diodes, Capacitors, Oscillators, Basic Electronic Circuits and Schematic Symbols Build your own Radio, AM Broadcast Station, Burglar Alarm, Electronic Game, Ohmmeter, Telegraph, Rain Detector, Amazing Sound Effects and Much More! With Built-in Speaker, Earphonem Meter, Seven-Segment LED Digital Display, Out-Front Controls, and More!	\$65.85
MX-906	130InOne, Start a great hobby in electronics, No Prior knowledge needed to assemble, Spring coil connections make it safe and easy for anyone to use, Includes detailed step-by-step illustrated manual for easy project construction, build a radio, AM broadcast station, electronic organ, kitchen timer, logic circuits and more; Comes with built-in speaker, 7-segment LED display, two fully integrated circuits and rotary controls.	\$59.43
MX-905	75InOne -You can build: Timer Buzzer, Sound Alarm, Burglar Alarm, Photo-level Alarm, Logic Tester, Electronics Organ, Motion Detector, First-Aid Siren, Pulss Width Modulation, Water Level Alarm, Sound-sensor Timer, Four-level Photometer, Two Stage Timer Sound, Voltage Detector, Conductivity Tester, Electronic Coin Toss, Sound Level Meter, Optical Volume, motion LED – DC-DC Converter & many more!	\$45.00
MX-904	50InOne - Everything you need to build: Electronic Keyboard, electronic noisemaker, radio announcer, finger touch lamp, morse code, metal detector, transistor radio, magnetic bridge, voltmeter, alarm, and many more	\$27.00
MX-903	30InOne, Learn-N-Build 30 Exciting Electronic Experiments safely and Easily. Evertying you need to Build: a Radio, Burglar Alarm, Water Detector, Morse code, Practice Circuit, Simple Computer Circuits and more!!	\$29.25

ESSENTIAL HOBBY KITS

<http://www.a1parts.ca/newkits/index2.htm#ELECTRONIC%20LAB%20KITS>

Part No.	Description	Price EA
MX-902-M	Operating Motor Kit - Build your own operating motor – It's Easy, It's fun and it's safe, Controlling motor's forward/reverse rotation with power! Color mixing with rotating color disc! Fan using motor and power! Uses 2" AA" 1.5V batteries (not included)	\$10.53
MX-902L	Operating Light Lab Kit -Build your own operating Light Kit – It's Easy, It's fun and it's safe, Operate and discover how the lights come ON and FLASHING! Operating your Light Action Kit with power!	\$9.00
MX-902G	Electronics Generator Lab - Build your own operating generator – It's Easy, It's fun and it's safe, Discover how a generator makes the electricity that makes things work! Learn how a generator lights up an LED!	\$12.21
MX-902B	Electronic Bell Lab - Build your own operating Bell – It's Easy, It's fun and it's safe, Discover how electric	\$9.50
MX-902T	Motor Generator Kit - Build your own operating motor and electric generator! It's Easy, It's fun and it's safe,	\$14.40
MX-901F	FM Radio Kit - Learn and build your own FM RADIO! Tune in your favourite FM RADIO stations, Receives 88-108 MHz band, Learn how RADIOS work, with earphone included, uses one 9V battery (not included)	\$15.30
MX-901C	Crystal Radio - A great fun to build your own radio Tune in your favourite AM stations, Receives 520-1650KHz band, Needs no batteries or AC-power, crystal diode converts RF to audio, Learn how radios work, with earphone included	\$11.10
MX-901	Crystal Radio Kit - A great fun to build your own radio Tune in your favourite AM stations, Needs no batteries or AC power, -Crystal diode converts RF to audio, Learn how radios work, Receives 550-1600KHz band, with earphone included	\$9.50
MX-901A	Electronic AM Radio - Learn and build your own AM RADIO! Tune in your favourite AM stations, Receives 520-1650KHz band, Learn how radios work, with earphone included, uses one 9V battery (not included)	\$9.60
MX-901-SW	Short Wave RADIO Kit - Learn and build your own SHORT WAVE RADIO! Explore the World of SHORT WAVE RADIOS, Receives band from 6-8 MHz (SW1) & 12-18 MHz (SW2), Learn how RADIOS work, with earphone included, uses one 9V battery (not included)	\$11.40
